ABOUT ME

I'm a graphic designer and student at Kean University, I consider myself a very creative and artful person who enjoys working in different areas in the world of design. I am determined when it comes to work, but also a whimsical person. I love to design and have fun, I enjoy coming up with solutions to any problem. As an artful person I'm always looking forward to creating new things that others will enjoy and find interesting. I am also bilingual, and I'm able to work well independently or as a member of a professional graphic design team.
