Dean's list Drexel University 2014 - '17
Dean's Scholarship, Drexel University 2014 - '17

*Additional info: Her three favorite things in the world are stale movie popcorn, the sound cats make when you wake them up, and the stegosaurus fossil (his name is Steggo Spaghetti, she's decided) at the Museum of Natural History. She loves talking about aliens and the unnecessary details of shallow horror movies. If you take anything away from this piece of paper however, just know she's absolutely obsessed with learning new things and making things look cool.
